Professional Summary

Full-stack web developer with a specialization in frontend development, experienced in building complex web applications, designing scalable frontend systems, leading cross-functional software teams, and translating business requirements into working products.

Experienced across React, TypeScript, Node.js, NestJS, Agile/Scrum, UI/UX, technical architecture, developer workflows, and software delivery. Also experienced in technical training, having designed and delivered frontend development curricula for intensive software development bootcamps.

Core Skills

Leadership & Delivery: Technical Leadership · Agile/Scrum · System Design · Requirements Analysis · Code Review · Technical Documentation · Mentoring

Frontend: React · TypeScript · JavaScript · Next.js · React Router · Vue · Redux · Tailwind CSS · HTML/CSS

Backend: Node.js · NestJS · Express · REST APIs · PostgreSQL · Databases

Engineering: Git · GitHub · GitHub Actions · Docker · CI/CD · Vite · ESLint · Testing · Web Accessibility

Product & Design: Figma · UI/UX · Prototyping · Design Systems

Professional Experience

Tishk International University

Senior Frontend Developer / Team Lead

Erbil, Iraq · Dec 2025 - Present

- Lead the development and delivery of a university-wide, multi-tenant Student Information System (SIS) covering admissions, curriculum, academic scheduling, grading, examinations, user management, approvals, and role-based access control.
- Coordinate a cross-functional software team across frontend, backend, UI/UX, business analysis, QA, and product stakeholders.
- Translate complex university processes and stakeholder requirements into technical solutions, user flows, prioritized work, and development plans.
- Contribute to system architecture, frontend architecture, permission models, approval workflows, and the design of complex administrative interfaces.
- Improve Agile/Scrum processes around backlog refinement, sprint readiness, requirements, design handoff, and delivery.
- Help define release and deployment workflows across development, staging, and production environments.
- Work directly with university leadership and operational departments to manage scope, technical trade-offs, rollout priorities, and product strategy.

Gateway ICT

Frontend Developer, FIB Team · Full-time

Erbil / Remote · Oct 2022 - Dec 2025

- Built business automation software and fintech management tools for internal operational workflows.
- Developed public-facing embedded digital services for FIB (First Iraqi Bank).
- Contributed to KPI monitoring and 4G provisioning software for FastLink, working with data-heavy operational interfaces.
- Developed reusable, production-ready React and Tailwind components from Figma designs for complex web applications.
- Built frontend functionality including maps, interactive charts, data visualizations, Markdown rendering, and dynamic tables handling large datasets.
- Refactored legacy frontend code using clean-code and SOLID principles, improving rendering behavior and reducing unnecessary network requests.
- Improved frontend engineering standards through ESLint rules, pre-commit hooks, pull-request templates, and documented development conventions.
- Created structured internal guidance covering pull requests, code reviews, commenting practices, naming conventions, and JavaScript/React standards.

Stirling Schools Company

Software Development & Digital Systems · Full-time, later Part-time

Erbil, Iraq · Oct 2021 - Oct 2022

- Led the redesign and development lifecycle of an internal React Native LMS application.
- Developed analytics dashboards using Power BI to support reporting and operational decision-making.
- Created a reusable React and TypeScript frontend boilerplate with scalable architecture and standardized development tooling for a remote development team.
- Introduced Agile/Scrum workflows using Jira and GitHub.
- Tested, analyzed, and documented issues across internal LMS, digital reading, and corporate web platforms.
- Automated repetitive certificate-generation workflows, saving the organization hundreds of staff hours.

Hymn.krd

Frontend Developer · Contract

Sulaymaniyah, Iraq · Oct 2020 - Mar 2021

- Started my professional software development career as a frontend developer at a technology startup.
- Built and shipped a fully functional music streaming Progressive Web App (PWA) using Vue.js.
- Worked across the frontend product experience from implementation through delivery, gaining hands-on experience building and shipping a production web application.

United Science Colleges Company

Graphic Designer · Part-time, later Full-time

Sulaymaniyah, Iraq · May 2018 - May 2020

- Managed visual design and maintained consistency across the organization's corporate identity.
- Developed and maintained the company's WordPress website.

Training Experience

Rwanga Foundation

Frontend Development Trainer, WeCode Bootcamp · Contract

Erbil, Iraq · May 2022 - Sep 2022

- Trained participants in the WeCode Bootcamp and taught the fundamentals of modern frontend development.
- Delivered training across HTML, CSS, JavaScript, React, Redux, Next.js, and TypeScript.
- Guided participants through practical exercises and application development while reinforcing frontend engineering fundamentals.

Potan Company

Frontend Development Trainer, Bit Bootcamp · Contract

Sulaymaniyah, Iraq · Oct 2021 - Dec 2021

- Served as the lead frontend trainer for the GIZ-funded, intensive three-month Bit Bootcamp, a full-stack MERN development program.
- Designed and delivered a comprehensive frontend development curriculum centered around React.
- Trained and guided participants throughout the development of their practical projects.
- Served on the judging panel for the bootcamp's Project Awards and Bit Hackathon.
- Developed the website for the Bit Festival.

Education

University of Human Development

Bachelor of Information Technology

Sulaymaniyah, Iraq · 2015 - 2019
